How THE calculated your ranking

The World University Rankings are generated from five Pillars, each of which represents a key area of higher education excellence: teaching, research, citations, industry income, and international outlook. These, in turn, are made up of thirteen metrics. The Pillars are blended in the following proportions: Teaching 30%, Research 30%, Citations 30%, International outlook 7.5%, Industry income 2.5%. Please visit [our website](#) for details about our methodology.

Your performance in detail

About THEDataPoints™

Would you like to know more about THE's rankings, your university's scores, and those of your peers? This year THE is introducing THEDataPoints™, a set of data products that will allow you to investigate and compare your university with your peers. Drawing on the data from 1,100 institutions, 11 million academic papers, plus 11,000+ academic surveys that forms the backbone of the World University Rankings, THEDataPoints™ will be the ideal tool for understanding institutional performance. For more information about these products, please contact us at data@timeshighereducation.com.
